A new homelessness prevention resource in the Hills!

The members of the Living Environment council of the Table de développement social des Collines de l'Outaouais (TDSCO) have developed a project to contribute to homelessness prevention. This project follows the publishing of the "Homelessness in the Hills"* portrait carried out by the TDSCO in 2024, which highlights issues related to housing insecurity in the communities of the MRC des Collines-de-l'Outaouais.

The homelessness prevention worker meets with people who are homeless or at risk of becoming homeless in order to offer them personalized support adapted to their reality and their needs.

Working closely with TDSCO's partners, the counsellor informs people of available resources, facilitates their access to appropriate services and follows up throughout their process.

We are there to meet you where you are
The counsellor can travel to meet you. Once you have identified what needs to address, you will make a plan together to get there, one step at a time.

A reference in the Hills (MRC des Collines-de-l'Outaouais)
We invite you to contact Sandro Civil, homelessness prevention worker, to discuss your concerns and find possible solutions together.

You can contact the worker for support;

- for yourself
- to refer someone else
- for information on resources related to housing, food, personal finances and anything else that can help you get out of a difficult situation.
